

72.1-220 G-TV PRESS

AUTOMATIC TOTAL VACUUM PRESS

rev. 0017.1811.56

■ Press 72.1-220 G-TV

- Continuous automatic press for the production of dry short pasta
- Fresh pasta production 80 – 160 kg/h
- Automatic dosing system
- Under vacuum dough preparation
- Extrusion screw in quenched stainless steel with terminal at three principles
- Die heads Ø 220 mm

72.1-220 G-TV PRESS

Press in stainless steel suitable for the production of dry and fresh pasta, particularly right for the automation of laboratory and small firms. It allows automatic production without worker presence.

Main technical features:

- Volumetric semolina measuring device and peristaltic pump fluid measuring device.
- Vacuum kneading basin with pump, filter and vacuum meter
- Kneading paddles fixed without bolts to make easier the cleaning operations
- Sturdy thrust bearing group studied for long production duration.
- Horizontal die head with metal ring
- Safety manometer with electrical contacts
- Cutting group for the short pasta cut with inverter and set of knives at 1, 2, 4 blades
- Ventilation for short pasta cut

Optional:

- Raw material premixer system Premix®
- Sistema elettronico di dosaggio ingredienti con PLC con pannello touch screen with touch screen panel

Special unit in steel

Optional: Premix®
