

R 540 C

SINGLE-SHEET RAVIOLI FORMING MACHINES

rev. 0027.2306.35

■ R 540 C

- Filled pasta production: single-sheet ravioli (sheet width 540 mm)
- System for creating pinched shapes “on the flat”
- Continuous filling feeder
- Tempered and case-hardened cams and gear wheels

R 540 C

Machines for producing single-sheet filled pasta with meat- and cheese-based fillings. Sturdy and reliable machines ideal for small and large fresh pasta production plants.

Main technical features:

- Interchangeable molds ensure quick and easy variations in product shape
- System for creating pinched shapes "on the flat"
- Integrated, continuous filling feeder which is easy to disassemble for cleaning purposes
- Single pair of adjustable milled and chromed steel laminating rollers with separate motor drive
- Adjustable machine speed, filling feeder and calibrating rollers (frequency converter)
- Scraps cutting device
- Clean design, control mechanisms separated from the work area
- Tempered and case-hardened cams and gear wheels
- Stainless steel electrical equipment cabinet with controls on a separate pushbutton panel.
- Command, control and safety devices compliant with CE standards
- Speed adjustment by means of inverters with potentiometers, combined line speed adjustment control
